

**STEWARDSHIP AND OVERSIGHT AGREEMENT
ON PROJECT ASSUMPTION AND PROGRAM OVERSIGHT
BY AND BETWEEN
FEDERAL HIGHWAY ADMINISTRATION, SOUTH CAROLINA DIVISION
AND THE
SOUTH CAROLINA DEPARTMENT OF TRANSPORTATION**

JUNE 2014

SECTION I. BACKGROUND AND INTRODUCTION

The Federal-aid Highway Program (FAHP) is a federally-assisted program of State-selected projects. The Federal Highway Administration (FHWA) and the State Departments of Transportation have long worked as partners to deliver the FAHP in accordance with Federal requirements. In enacting 23 U.S.C. 106(c), as amended, Congress recognized the need to give the States more authority to carry out project responsibilities traditionally handled by FHWA. Congress also recognized the importance of a risk-based approach to FHWA oversight of the FAHP, establishing requirements in 23 U.S.C. 106(g).

The scope of FHWA responsibilities, and the legal authority for a State DOT's assumption of FHWA responsibilities, developed over time. The U.S. Secretary of Transportation delegated responsibility to the Administrator of the FHWA for the FAHP under Title 23 of the United States Code, and associated laws (49 CFR 1.84 and 1.85). The following legislation further outlines FHWA's responsibilities:

- Intermodal Surface Transportation Efficiency Act (ISTEA) of 1991;
- Transportation Equity Act for the 21st Century (TEA-21) of 1998;
- Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) of 2005; and
- Moving Ahead for Progress in the 21st Century Act (MAP-21) of 2012 (P.L. 112-141).

The FHWA may not assign or delegate its decision-making authority to a State DOT unless authorized by law. Section 106 of Title 23, United States Code (Section 106), authorizes the State to assume specific project approvals. For projects that receive funding under Title 23, U.S.C., and are on the National Highway System (NHS) including projects on the Interstate System, a State DOT may assume the responsibilities of the Secretary of the U.S. Department of Transportation under Title 23 for design, plans, specifications, estimates, contract awards, and inspections with respect to the projects unless the Secretary determines that the assumption is not appropriate (23 U.S.C. 106(c)(1)). For projects under Title 23, U.S.C. that are not on the NHS, a State DOT shall assume the responsibilities for design, plans, specifications, estimates, contract awards, and inspections unless the State DOT determines that such assumption is not appropriate (23 U.S.C. 106(c)(2)).

For all other project activities which do not fall within the specific project approvals listed in Section 106 or are not otherwise authorized by law, the FHWA may authorize a State DOT to perform work needed to reach the FHWA decision point, or to implement FHWA's decision. However such decisions themselves are reserved to FHWA.

The authority given to the State DOT under Section 106(c)(1) and (2) is limited to specific project approvals listed herein. Nothing listed herein is intended to include assumption of FHWA's decision-making authority regarding Title 23, U.S.C. eligibility or Federal-aid participation determinations. The FHWA always must make the final eligibility and participation decisions for the Federal-aid Highway Program.

Section 106(c)(3) requires FHWA and the State DOT to enter into an agreement relating to the extent to which the State DOT assumes project responsibilities. This Stewardship and Oversight Agreement (S&O Agreement), includes information on specific project approvals and related responsibilities, and provides the requirements for FHWA oversight of the FAHP (Oversight Program), as required by 23 U.S.C. 106(g).

SECTION II. INTENT AND PURPOSE OF S&O AGREEMENT

The intent and purpose of this S&O Agreement is to document the roles and responsibilities of the FHWA's South Carolina Division Office (FHWA) and South Carolina Department of Transportation (SCDOT) with respect to Title 23 project approvals and related responsibilities, and to document the methods of oversight which will be used to efficiently and effectively deliver the FAHP.

SECTION III. ASSUMPTION OF RESPONSIBILITIES FOR FEDERAL-AID PROJECTS ON THE NATIONAL HIGHWAY SYSTEM

- A. SCDOT will assume FHWA's Title 23 responsibilities for design; plans, specifications, and estimates (PS&E); contract awards; and inspections, with respect to Federal-aid projects on the National Highway System (NHS). Project approvals and related activities for which SCDOT has assumed responsibilities are outlined in Attachment A.

- B. Notwithstanding section A above, FHWA may, in its discretion and on a case by case basis, retain any specific approval or related activity for any project located on the NHS. Those projects for which FHWA retains certain project specific actions or related responsibilities will be identified as Projects of Division Interest (PoDI). Project approvals and related activities retained by FHWA will be identified in individual project oversight plans. FHWA, in coordination with SCDOT, will use a risk-based approach to determine which NHS projects are considered PoDI and which project areas warrant FHWA approval or oversight.
- C. SCDOT may not assume responsibilities for Interstate projects that are in high risk categories (23 U.S.C. 106(c)(1)). Any projects under this category are identified and discussed in Section X of this agreement.
- D. SCDOT is to exercise any and all assumptions of the Secretary responsibilities for Federal-aid projects on the NHS in accordance with Federal laws, regulations and policies.

SECTION IV. ASSUMPTION OF RESPONSIBILITIES FOR FEDERAL-AID PROJECTS OFF THE NATIONAL HIGHWAY SYSTEM

- A. SCDOT will assume FHWA's Title 23 responsibilities for design, PS&Es, contract awards, and inspections, with respect to Federal-aid projects off the NHS (non-NHS). Project approvals and related activities for which SCDOT has assumed responsibilities are outlined in Attachment A. In developing this Agreement, SCDOT has formally requested that FHWA retain program wide approval for two additional actions beyond those otherwise reserved to FHWA by law. The two actions are (1) authorize advertising for bids and (2) approval of design-build Requests for Proposals and addenda. Attachment A incorporates this request.
- B. Pursuant to 23 U.S.C. 109(o), non-NHS projects shall be designed and constructed in accordance with State laws, regulations, directives, safety standards, design standards, and construction standards.
- C. Except as stipulated above per 23 U.S.C.109(o), SCDOT is to carry out FHWA's approvals and related responsibilities on these projects in accordance with Federal laws.
- D. SCDOT may, in its discretion and in consultation with FHWA, request FHWA carry out certain approvals or related responsibilities on a project by project basis. Such projects will be identified as PoDI with the specific FHWA approval actions and/or related responsibilities documented in an individual project oversight plan.

SECTION V. ASSUMPTION OF RESPONSIBILITIES FOR LOCALLY ADMINISTERED PROJECTS

- A. SCDOT may, pursuant to 23CFR 1.11 and 635.105, delegate certain Federal-aid project authorities to a well-qualified and suitably equipped Local Public Agency (LPA). SCDOT will utilize an effective qualification evaluation process to assess a LPA's

abilities to administer Federal-aid projects. The process will, at a minimum, assess staffing levels, experience, and past performance. If SCDOT chooses to delegate certain Federal-aid project authorities to a LPA, SCDOT is still responsible for ensuring that the projects are administered in accordance with all applicable Federal and State requirements.

- B. SCDOT is responsible for ensuring that LPA administered projects are carried out in accordance with the FHWA approved "Procedures for Local Public Agency Project Administration." These procedures will be reviewed in consultation with FHWA on an annual basis for the purpose of continuous improvement. FHWA is to approve any modifications to the procedures.
- C. A Participation Agreement will be executed between SCDOT and the local agency to outline the project responsibilities of both SCDOT and the local agency. SCDOT will not delegate, to local agencies, approval authority in the following program elements:
 - o NEPA
 - o Sole Source
 - o Use of Force Account
 - o Design Exceptions
 - o Changes to Interstate access
 - o Right of Way certification
 - o Engineering Plans
 - o DBE Goals
 - o Labor compliance
 - o Final Inspection
 - o Project Acceptance
- D. If a LPA administered project is selected as a PoDI, either by SCDOT or FHWA, an individual project oversight plan will be prepared specifying those approval actions retained by FHWA. In these cases, SCDOT will be responsible for ensuring proper coordination with FHWA.
- E. Section XII of the Agreement details SCDOT's oversight and reporting requirements when administering its LPA program.

SECTION VI. PERMISSABLE AREAS OF ASSUMPTION UNDER 23 U.S.C. 106(c)

An assumption of responsibilities under 23 U.S.C. 106(c) may cover only activities in the following areas:

- A. Design which includes preliminary engineering, engineering, and design-related services directly relating to the construction of a FAHP-funded project, including engineering, design, project development and management, construction project management and inspection, surveying, mapping (including the establishment of temporary and permanent geodetic control in accordance with specifications of the National Oceanic and Atmospheric Administration), and architectural-related services.

- B. PS&E which represents the actions and approvals required before authorization of construction. The PS&E package includes geometric standards, drawings, specifications, project estimates, certifications relating to completion of right-of-way acquisition and relocation, utility work, and railroad work.
- C. Contract awards which include procurement of professional and other consultant services and construction-related services to include advertising, evaluating, and awarding contracts.
- D. Inspections which include general contract administration, material testing and quality assurance, review, and inspections of Federal-aid contracts as well as final inspection/acceptance.
- E. Approvals and related responsibilities affecting real property as provided in 23 CFR 710.201(i) and any successor regulation in 23 CFR Part 710.

SECTION VII. FEDERAL APPROVALS AND RELATED RESPONSIBILITIES THAT MAY NOT BE ASSUMED BY THE STATE DOT

- A. Any approval or related responsibility NOT listed in Attachment A cannot be assumed by SCDOT without prior concurrence by FHWA Headquarters. The following is a list of the most frequently-occurring approvals and related responsibilities that may not be assumed by SCDOT:
 - Civil Rights Program approvals;
 - Environmental approvals, except those specifically assumed under other agreements. (23 U.S.C. 326 and 327; programmatic categorical exclusion agreements);
 - Federal air quality conformity determinations required by the Clean Air Act;
 - Progress payments and final vouchers;
 - Approval of federally-funded hardship acquisition, protective buying, and 23 U.S.C. 108(d) early acquisition;
 - Project agreements and modifications to project agreements and obligation of funds (including advance construction);
 - Planning and programming pursuant to 23 U.S.C. 134 and 135;
 - Special Experimental Projects (SEP-14 and SEP-15);
 - Use of Interstate airspace for non-highway-related purposes;
 - Any Federal agency approval or determination under the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Uniform Act), as amended, and implementing regulations in 49 CFR Part 24;
 - Waivers to Buy America requirements;
 - Approval of Federal participation under 23 CFR 1.9(b);
 - Approval of additional federal-aid eligible preventive maintenance activities outside FHWA/SCDOT's Preventive Maintenance Agreement;
 - Requests for credits toward the non-Federal share of construction costs for early acquisitions, donations, or other contributions applied to a project;

- Functional replacement of property;
 - Approval of a time extension for preliminary engineering projects beyond the 10-year limit, in the event that actual construction or acquisition of right-of-way for a highway project has not commenced;
 - Approval of a time extension beyond the 20-year limit for right of way projects, in the event that actual construction of a road on the right-of-way is not undertaken;
 - Determine need for Coast Guard Permit;
 - On-the-Job Training Special Provision – Approval of New Project Training Programs; and
 - Any other approval or activity not specifically identified in Attachment A unless otherwise approved by the FHWA, including the Office of Chief Counsel.
- B. For all projects and programs, SCDOT will comply with Title 23 and all applicable non-Title 23, U.S.C. Federal-aid program requirements, such as metropolitan and statewide planning; environment; procurement of engineering and design related service contracts (except as provided in 23 U.S.C. 109(o)); Civil Rights including Title VI of the *Civil Rights Act*, and participation by Disadvantaged Business Enterprises; prevailing wage rates; and acquisition of right-of-way, etc.
- C. This Agreement does not modify FHWA’s non-Title 23 program approval and related responsibilities, such as approvals required under the Clean Air Act; National Environmental Policy Act, Executive Order on Environmental Justice (E.O. 12898), and other related environmental laws and statutes; the Uniform Act; and the Civil Rights Act of 1964 and related statutes.

SECTION VIII. PROJECT ACTION RESPONSIBILITY MATRIX

Attachment A, Project Action Responsibility Matrix, to this Agreement identifies FAHP project approvals and related responsibilities. The Matrix specifies which approvals and related responsibilities are assumed by SCDOT under 23 U.S.C. 106(c) or other statutory or regulatory authority, as well as approvals and related responsibilities reserved to FHWA. Assumption of project approvals specified in this matrix will apply program wide. Deviations will be documented on a project by project basis through the development of individual PoDI oversight plans.

SECTION IX. IDENTIFYING PROJECTS OF DIVISION INTEREST

- A. In May/June of each year, FHWA and SCDOT will assess the current list of PoDI in planning for the upcoming federal performance year. Existing PoDI may be removed if the identified risk areas have been either mitigated or surpassed. New PoDI will be identified for consideration through (but not limited to) a review of active PE and construction projects, the current STIP, and the outcome of process/program reviews and project inspections completed in the year.
- B. In general, all major projects will be PoDI and consideration will be given to other projects having (1) regional significance or substantial traffic impacts, (2) controversy or

community interest, (3) innovative financing or contracting techniques, and (4) environmental and permit compliance concerns.

- C. FHWA and SCDOT agree that additional PoDI may be added during the year as new projects or risk elements are identified.
- D. An updated PoDI list will be maintained in a manner that is easily accessible and readily available to both FHWA and SCDOT project staff.

SECTION X. HIGH RISK CATEGORIES

- A. In 23 U.S.C. 106(c), Congress directs that the Secretary shall not assign any approvals or related responsibilities for projects on the Interstate System if the Secretary determines the project to be in a high risk category. Under 23 U.S.C. 106(c)(4)(8), the Secretary may define high risk categories on a National basis or on a State-by-State basis.
- B. As of the effective date of this Agreement, FHWA has determined there are no high risk categories with SCDOT.

SECTION XI. FHWA OVERSIGHT PROGRAM UNDER 23 U.S.C. 106(g)

- A. In 23 U.S.C. 106(g), Congress directs that the Secretary shall establish an oversight program to monitor the effective and efficient use of funds authorized to carry out the FAHP. This program includes FHWA oversight of the State's processes and management practices, including those involved in carrying out the approvals and related responsibilities assumed by the State under 23 U.S.C. 106(c). Congress defines that, at a minimum, the oversight program shall be responsive to all areas relating to financial integrity and project delivery.
- B. FHWA shall perform annual reviews that address elements of SCDOT's financial management system in accordance with 23 U.S.C. 106(g)(2)(A). FHWA will periodically review SCDOT's monitoring of sub-recipients pursuant to 23 U.S.C. 106(g)(4)(B).
- C. FHWA shall perform annual reviews that address elements of the project delivery systems of SCDOT, which elements include one or more activities that are involved in the life cycle of project from conception to completion of the project. FHWA will also periodically evaluate the practices of SCDOT for estimating project costs, awarding contracts, and reducing costs. 23 U.S.C. 106(g)(2) and (3).
- D. To carry out the requirements of 23 U.S.C. 106(g), FHWA will employ a risk management framework to evaluate financial integrity and project delivery, and balance risk with staffing resources, available funding, and SCDOT's transportation needs. FHWA may work collaboratively with SCDOT to assess the risks inherent with

the FAHP and funds management, and how that assessment will be used to align resources to develop appropriate risk response strategies.

Techniques FHWA will use to identify and analyze risks and develop response strategies include the following:

- Program Assessments;
- FIRE Reviews;
- Program Reviews;
- Certification Reviews;
- Recurring reviews such as the Compliance Assessment Program (CAP); and
- Inspections of project elements or phases (i.e., biannual work zone assessment).

These techniques will be carried out in a manner consistent with applicable control documents. Reviews may be conducted by individual FHWA staff or by teams including SCDOT staff participation.

E. Program Responsibility Matrix

Attachment B to this S&O Agreement is the Program Responsibility Matrix that identifies all relevant FHWA program actions. The matrix identifies both the FHWA and SCDOT program contact offices responsible for each action.

F. Manuals and Operating Agreements

SCDOT manuals, agreements and other control documents that have been approved for use on Federal-aid projects are listed in Attachment C to this Agreement. Any modifications/revisions to these documents require FHWA review and approval.

G. Stewardship and Oversight Indicators

FHWA and SCDOT will use a series of Stewardship and Oversight Indicators (Indicators) as tools to assess whether the assumptions of responsibility outlined in this Agreement are functioning appropriately. The Indicators will be risk-based and will continue to evolve to meet the needs of FHWA and SCDOT.

Reporting on the Indicators will be through the reporting requirements as stipulated in Section XII below. The Stewardship and Oversight Indicator data will be evaluated as a means to effectively manage and improve program delivery. The data will be used to determine if actions (i.e., new processes or procedures, program reviews, etc.) are needed to be considered as FHWA and SCDOT develop their forthcoming performance business plans.

SECTION XII. STATE DOT OVERSIGHT AND REPORTING REQUIREMENTS

A. SCDOT Administered Projects -

SCDOT is responsible for demonstrating to FHWA that it is carrying out its responsibilities in accordance with this Agreement. In order to fulfill this responsibility, the SCDOT will:

- Prepare construction documents, for all Federal-aid projects, in accordance with the “Preconstruction Project Development Process” and the Construction Obligation Schedule;
- Carry out design Quality Assurance (QA) reviews on all Federal-aid projects prior to advertisement;
- Develop construction cost estimates per SCDOT’s “Preparation of the Engineer’s Estimate” guidelines;
- Award construction contracts as set forth in SCDOT’s “Bid Reviews and Recommendations Leading to Contract Award and Execution” policy;
- Conduct construction activities as set forth in the project’s sealed construction documents and in accordance with SCDOT’s Construction Manual; and
- Conduct and document Quality Management Team inspections on a reasonable sample of active construction projects.

SCDOT will maintain individual Federal-aid project files that will include documentation of all required FHWA actions and SCDOT’s assumed project approvals as set forth in this Agreement. SCDOT will provide FHWA access to the project files when requested.

On a quarterly frequency, SCDOT will provide FHWA with a Preconstruction Summary Report (PSR) and a Construction Summary Report (CSR). These reports will provide the necessary data to analyze an agreed upon set of Stewardship and Oversight Indicators in a manner similar to the following:

- The PSR is to provide sufficient data that substantiates Federal-aid projects in the respective lettings of the quarter were prepared in accordance with the procedures set forth above. While other Indicators may be identified and assessed to meet the needs of either FHWA or SCDOT, each quarterly report should typically provide data on (1) average time to complete NEPA documents, (2) significant PS&E comments, (3) percent of projects with conditional ROW certifications, and (4) number of projects requiring a STIP adjustment prior to advertisement.
- The CSR should summarize the status of active construction projects (projects that have not reached substantial completion) to include work complete, time

expended, contract change orders, active contract claims, and the findings of Quality Management inspections performed. In addition, a bid data summary will be provided for the lettings in the respective quarter to include the data generated by SCDOT's Construction Data Support office.

B. SCDOT Oversight of Locally Administered Projects -

SCDOT is required to provide adequate oversight of sub-recipients including oversight of any assumed responsibilities SCDOT has delegated to Local Public Agencies. Therefore, SCDOT is to exercise similar judgments as FHWA based on Federal laws, regulations, and policies. In carrying out its responsibilities for a sub-recipient oversight program (23 U.S.C. 106(g)(4)), sub-grantee awareness of grant requirements (49 CFR Part 18.37), management of grants and sub-grants (49 CFR 18.40), and pass through entity responsibilities (OMB Circular A-133§ .400 (d)), SCDOT will:

- Maintain a sufficiently staffed LPA Administration Unit;
- Maintain an up-to-date LPA website that is easily accessible to local agencies and provides contract administration tools including essential project related documents and links to fundamental training subject matter; and
- Administer the LPA program in conformance with the FHWA approved "Procedures for Local Public Agency Project Administration" that which includes a comprehensive LPA qualification process.

As stipulated in Section V of this Agreement, SCDOT and FHWA will assess the "Procedures for Local Public Agency Project Administration" on an annual basis to determine if there are any opportunities to improve the processes outlined. SCDOT agrees to maintain and administer these procedures, such that they, at a minimum, allow SCDOT to:

- Determine whether a sub-recipient of Federal funds has adequate project delivery systems in place and sufficient accounting controls to properly manage Federal-aid funds;
- Determine whether a sub-recipient is staffed and equipped to perform work satisfactorily and cost effectively, and that adequate staffing and supervision exists to manage a Federal-aid project;
- Assess whether sub-recipient projects receive adequate inspection to ensure they are completed in conformance with approved plans and specifications;
- Ensure that when LPAs elect to use consultants for engineering services, the LPA, as provided under 23 CFR 635.105(b), shall provide a full-time employee of the agency to be in responsible charge of the project;
- Carryout sub-recipient reporting requirements in accordance with the Federal Funding Accountability and Transparency Act of 2006, PL 109-282 (as amended by PL 110-252).

SCDOT's LPA Administration Unit will maintain a project filing system that will include documentation of all required FHWA actions and SCDOT's assumed project approvals as set forth in this Agreement. SCDOT will provide FHWA access to the project files when requested.

On a quarterly frequency, SCDOT will provide FHWA with a status report summarizing its LPA program. The report should include, at a minimum, the status of each active LPA project (i.e., current phase, approval milestones made by SCDOT, etc.) and a summary of approved LPAs (i.e., requests received, SCDOT approvals/denials...).

SECTION XIII. IMPLEMENTATION AND AMENDMENTS

- A. This Agreement will take effect as of the effective date of the signature of the FHWA South Carolina Division Administrator, who shall sign this Agreement last.
- B. This Agreement supersedes the November 2007 Agreement and all corresponding Supplements.
- C. FHWA and SCDOT agree that updates to this Agreement will be considered periodically on a case-by-case basis or when:
 - Significant new legislation, Executive Orders, or other initiatives affecting the relationship or responsibilities of one or both parties to this Agreement occurs;
 - Leadership, or leadership direction, changes at SCDOT or FHWA; or
 - Priorities shift as a result of audits, public perception, or changes in staffing at either SCDOT or FHWA.
- D. FHWA and SCDOT agree that changes may occur to the contents of the Attachments to this Agreement and documents incorporated by reference into the Agreement. Except as provided in paragraph XIII.E, changes to the contents of these documents will not require FHWA and SCDOT to amend this Agreement. The effective date of any revisions to one of these documents shall be clearly visible in the header of the document. This Agreement and any revised document shall be posted on FHWA's and SCDOT's websites within five (5) business days of the effective date.
- E. Any changes to the high risk categories must be documented by an amendment to this Agreement.

ATTACHMENT A
PROJECT ACTION RESPONSIBILITY MATRIX

The following matrix identifies Federal-aid highway program (FAHP) project approvals and related responsibilities. The matrix specifies which ones are subject to State assumption under the provisions of 23 U.S.C. 106(c) or other statutory or regulatory authority, as well as those which are reserved to FHWA. **This matrix applies program wide; any revisions to project approval assumptions by the State, as shown in the matrix, will be handled on a project by project basis.** When a change in project approval assumptions is determined appropriate for a specific project, the project will be classified as a PoDI and the project approval assumptions will be documented in a project oversight plan.

Project actions that cannot be assumed by SCDOT at any time are noted in the action description. These actions are reserved to FHWA because they are outside the scope of 23 U.S.C. 106(c), or otherwise are reserved to FHWA by law.

For the column marked "Projects on the NHS," FHWA may retain any approval or related action in any box marked "State" as deemed appropriate by FHWA. In those situations, the project will be classified as a PoDI, and an individual project oversight plan will be prepared.

For the column marked "Projects off the NHS", SCDOT will assume all items marked "State" unless SCDOT determines the assumption of a particular item is not appropriate on a project by project basis. Again, in these situations, the particular project will be identified as a PoDI and an individual project oversight plan will be prepared detailing those project approval actions that will be retained by FHWA.

SCDOT is responsible for ensuring all individual elements of the project are eligible for FAHP funding, but all final eligibility and participation determinations are retained by FHWA. While FHWA may not delegate decision-making authority to SCDOT unless authorized by law, FHWA may authorize SCDOT to perform work needed to reach the decision point, or to implement the decision.
