FINAL RFP - ROUND 6

Question No.	Category	Section	Page / Doc No.	Question/Comment	SCDOT	
					Response	Explanation
1	RFP	2	Section 2.2	In Section 2.2 of the RFP on pages 1 of 41 and 2 of 41, the last goal states "Minimal to no impacts to the accommodations on Tract 22 of the S-292 site". Can SCDOT provide clarification on the word "accommodations" as used in this sentence?	No_Revision	Accommodations from a real estate standpoint, is any real property used in conjunction with the residential housing units. Per NEPA guidance, if parking is affected there would need to be additional public coordination with property owners/renters to determine if impacts exist or not. Some form of public engagement would be required to provide residents an opportunity to comment since no alterations were proposed during the original public engagement.
