

SCDOT
NOTICE TO POTENTIAL PROPOSERS
I-95 OVER LAKE MARION - DESIGN-BUILD PROJECT

SCDOT will hold an open-forum meeting on September 26, 2024 at 11:00 am with prospective proposers interested in submitting responses to the upcoming Request for Qualifications for the I-95 over Lake Marion Bridge Replacement design-build project in Clarendon and Orangeburg Counties. The purpose of this meeting will be to gather information on design-build industry's interest in the project and to improve the design-build industry's understanding of the project requirements. SCDOT will reserve 60 minutes for this open-forum meeting to be held via Microsoft Teams video conferencing. This meeting is not mandatory and will not have bearing on the potential short-listing process.

Anticipated Procurement Type

SCDOT plans to utilize a two-phase design-build selection procedure. A best value procurement is anticipated using a weighted criteria formula.

Anticipated Scope of Work

The SCDOT proposes to replace the existing north and southbound I-95 bridges over Lake Marion. This includes replacement of two sets of twin bridges: 4500-foot long "Main" bridges and 360-foot long "Relief" bridges. A two-way shared-use pedestrian and bicycle path will also be incorporated into the project, spanning the lake on the western/southbound side of the existing I-95 bridges. The project includes providing accommodations for a 24" waterline on the bridge. Demolition of the existing bridges along with the old US 301 bridge to the northwest of this project will also be included.
