Notification and Letter of Support Request Form for Political Subdivisions Submitting Federal or State Grant Applications or Earmark Requests

SCDOT owns and maintains approximately 97% of the federal-aid eligible highway system in the State of South Carolina. SCDOT also coordinates a comprehensive regional planning process with the Metropolitan Planning Organizations (MPOs) and Councils of Governments (COGs) to identify transportation projects to benefit the unique requirements of South Carolina's communities. Maintaining integrity of the State Highway System and existing transportation planning process is essential to effectively apply for and administer awarded competitive grants and/or earmarked funds.

To that end, political subdivisions must coordinate with SCDOT **at least 45 calendar days** before submitting a **state or federal grant application or earmark request** if any of the following apply:

- The project impacts the State Highway System;
- The project impacts the coordinated statewide transportation planning process;
- The project impacts SCDOT operations;
- Project impacts to SCDOT, the State Highway System, or coordinated statewide transportation planning process are unknown; or
- A Letter of Support is being requested to include in the grant application or earmark request.

The attached form must be completed in its entirety and provided to SCDOT at least 45 calendar days before submitting a grant application or earmark request.

Failure to adhere to the 45 calendar day requirement may result in a lack of grant or earmark support from SCDOT.

Please return the fully completed form and reach out to Roxanne Ancheta, Director of Grants, AnchetaRM@scdot.org with any questions.
